

CMT 446 – Information Systems Audit

Course Description

This course examines information systems auditing, governance, risk management, and compliance using globally recognized audit and control frameworks.

Course Objectives / Learning Outcomes (CBET)

- Conduct information systems audits using professional frameworks
- Evaluate IT risks, controls, and compliance
- Apply ethical and professional judgment in audit engagements

Course Structure and Standards Mapping (6 Modules)

Module 1: Introduction to IS Audit and Governance

Indicative Content:

- Role of IS audit
- Corporate governance
- Audit environment

Mapped Standards / Frameworks:

- ISACA Audit Domain 1
- COBIT 2019 – Governance system

Module 2: IT Risk Management and Internal Controls

Indicative Content:

- Risk assessment
- Control objectives
- Internal control models

Mapped Standards / Frameworks:

- ISO/IEC 27001 Clauses 6–8
- ISACA Audit Domain 2

Module 3: Audit Standards and Methodology

Indicative Content:

- Audit planning

- Evidence collection
- Audit techniques

Mapped Standards / Frameworks:

- ISACA Audit Domain 3
- COBIT 2019 – Performance management

Module 4: Infrastructure, Cloud, and Cybersecurity Audits

Indicative Content:

- Network audits
- Cloud controls
- Cybersecurity assurance

Mapped Standards / Frameworks:

- ISO/IEC 27001 Annex A
- ISACA Audit Domain 4

Module 5: BCP, DR, and Regulatory Compliance

Indicative Content:

- Business continuity
- Disaster recovery
- Regulatory audits

Mapped Standards / Frameworks:

- ISO 22301
- ISACA Audit Domain 5

Module 6: Audit Reporting and Professional Ethics

Indicative Content:

- Audit reporting
- Professional ethics
- Continuous auditing

Mapped Standards / Frameworks:

- ISACA Code of Ethics
- COBIT 2019 – Monitoring

List of Assessments and Marks

- Student performance in this course shall be evaluated through a combination of continuous assessment and a final examination, structured as follows:
 - **Continuous Assessment Tests (CATs) and Assignments: 30%**
These shall assess students' understanding of theoretical concepts, practical application of skills, problem-solving ability, and alignment with prescribed standards and frameworks covered in the course.
 - **Final Examination: 70%**
The final examination shall evaluate comprehensive knowledge of the course content, including conceptual understanding, analytical ability, and application of principles in real-world and professional contexts.
